

DATA AND AI SOLUTION-LED SERVICES FOR HOSPICE, PALLIATIVE & HOME HEALTH

We help care providers turn fragmented data into actionable insights that improve outcomes, efficiency, and growth.

THE HOSPICE LANDSCAPE

~40%*

cite staffing as #1 challenge

65%#

of nurses report high stress and burnout

36%**

rank AI as top ROI investment

\$28.2B[^]

Annual hospice spend

TOP HOSPICE CHALLENGES

Referral leakage & slow admissions

Inefficient staffing & scheduling

Lack of real-time operational visibility

Disconnected EMR / EHR / CRM systems

Limited predictive capabilities

WHAT INFERENZ DELIVERS

Unified, trusted data foundation

Faster admissions & improved conversion

Optimized staffing and care delivery

Predictive insights for proactive decision-making

Measurable ROI

OUR APPROACH

01 Assess & Discover

02 Create Tailored Roadmap

03 Execute with Accelerators

04 Scale & Optimize

WHY INFERENZ?

Healthcare data is complex. Generic solutions aren't enough. Here's what makes us different.

Healthcare-Focused Expertise

- Caregence™ - Inferenz' native healthcare Agentic AI platform for workflow automation
- Deep domain expertise

Customer Ownership First

- You own all IP and solutions
- No vendor lock-in
- Full transparency

Flexible Engagement Models

- Time & Material
- Outcome-based
- Hybrid models aligned to your goals

PRE-BUILT ACCELERATORS

Ready-to-use frameworks to accelerate

- ⊙ Data Ingestion
- ⊙ Data Quality
- ⊙ Data Governance
- ⊙ Responsible AI and many more....

USE CASES

Explore what's possible with Data & AI

- ⊙ Admission prediction & referral prioritization
- ⊙ Staffing optimization & workload balancing
- ⊙ Patient risk stratification
- ⊙ Operational dashboards with real-time visibility
